

New Ambulance Station

Cornerstone of the new Greece Volunteer Ambulance Service station is put into place by Vincent L. Tofany (left), member of the service's board of directors and Greece Town attorney, and Fred E. Strauss, president of the service. Officers and members of the board gathered at the station, 867 Long Pond Rd., yesterday for the ceremony. The split-level house will provide facilities for the three-man crew and ambulance. The building is expected to be completed within two months.
